To all Authorized Employers of Peace Officers

Re: Department of National Defence New Issued Driver Licence (DND 404)

As anticipated, the Department of National Defence has begun a program of issuing a plastic photo licence (DND 404). A copy of which is attached

The Department of National Defence is the only Federal Department authorized to operate a driver licensing program for the operation of their vehicles. Military personnel operating Department of National Defence vehicles are not subject to provincial or municipal regulations, but do adhere to provincial transport regulations where possible.

Military members do not require a civilian's driver licence to operate Department of National Defence vehicles, but civilian employees of the Department of National Defence must be in possession of a valid unrestricted provincial operator's licence for the class equivalent to the Department of National Defence vehicle being driven.

Required enforcement action should be issued against the DND 404 driver's licence where applicable. Suspension of a provincial driver's licence would apply to a DND 404 for a period of time at least equal to the provincial suspension.

If you have any other questions please direct through the Provincial Transportation Ministry to the Department of National Defence Director of Transportation at 1-877-363-8811.

Sincerely,

Sean Bonneteau
Manager
Public Security Peace Officer Program
